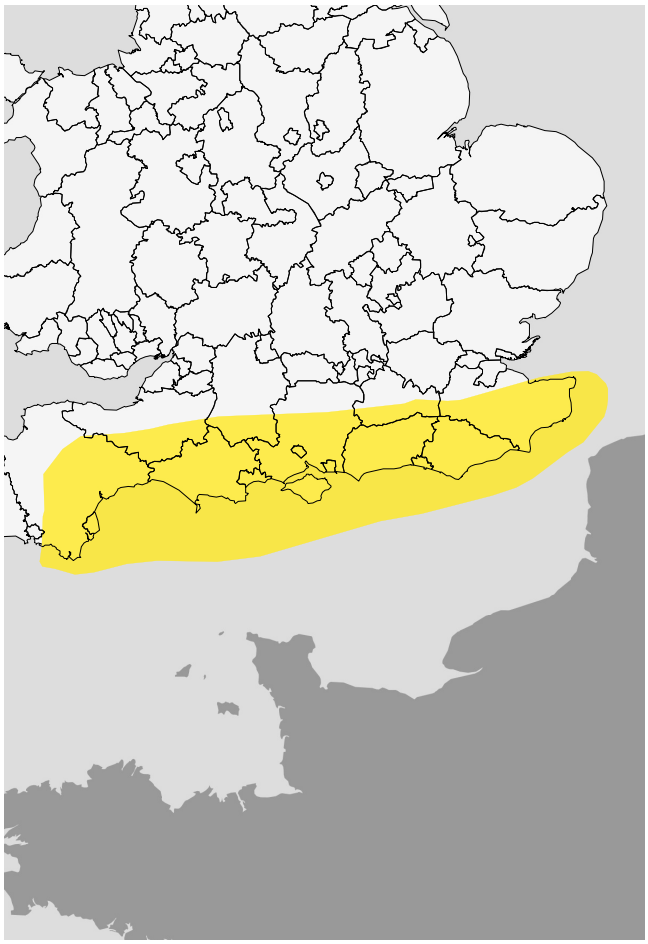
Yellow warning
Ice

Between
18:00 Wed 30 Dec 2020 and
11:00 Thu 31 Dec 2020



Icy stretches likely to form from Wednesday evening

What to expect

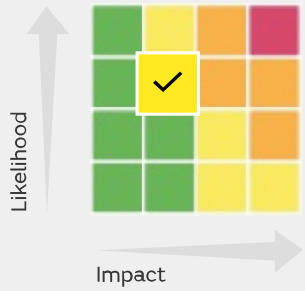
- Probably some icy patches on some untreated roads, pavements and cycle paths
- Some injuries from slips and falls on icy surfaces

Further details

An area of rain is likely to run across the south of England during Wednesday before clearing to the east overnight into Thursday.

This will leave surfaces wet with ice forming rapidly once the rain clears.

There remains some uncertainty over the extent of the rain through Wednesday with the far south most likely to see this.



Medium likelihood of low impacts

Issued at 10:23 Mon 28 Dec, 2020 Updated at 09:33 Wed 30 Dec, 2020

Yellow warning
Ice

Between
18:00 Wed 30 Dec 2020 and
11:00 Thu 31 Dec 2020

Further Details (continued)

In addition there is a threat of a little snow falling, mainly above 200 m with some accumulations of 2-3 cm but the majority of places will only see rain.

Reason for update

The warning has been updated to focus on the risk of ice along the south though a little snow is still possible. The start time has also been delayed until 1800 Wednesday with the end time delayed until later Thursday morning
